Disclaimer

The poems in this book reflect my personal views.

They are works of poetry, not statements of fact.

Thank you the brave, the honest and wise
The laymen and doctors and scientists,
The psychologists and lawyers and censored experts
The outcasts and all those like-minded

Truth will prevail, it does in the end
Be courageous, keep questioning, stay strong,
For there are millions like you, all around, eyes wide open
Despite what they say, you belong

Love over hate and truth over lies
Freedom over fear ‘til the end,
We must rise above all the dread and division
For unity and love will transcend

On a personal note, I’d just like to say
Thank you to all of my readers,
Thank you for sharing this book with your friends
And thanks, mum and dad, my believers

I wrote all this poetry, almost five years ago
Half a decade, it’s flown by so fast,
And just like fine wine, it has aged oh so well
Let’s hope all this stays in the past

IT'S JUST... NOT VERY JUST

The myth of the frog in boiling water, this is how it goes

If you put a frog in boiling water, it's going to say a big no

It will jump right out as fast as it can, escape the danger ahead

But if you do the opposite, it might as well be dead

If it goes in tepid water and you bring it to a boil

It won't jump out with haste or speed, rather cooked like salmon in foil

And this is what the government has done, for the best part of two years

With all their half-truths and help of the news

It's reduced us to pure fear and tears

So strap on right in and pull up a chair, as I tell the story of Covid

In terms of the frog in boiling water, as horrific as a rodent

It's just an optional mask my friends

Wear it if you want to,

It's just two metres from the rest of the world

Whatever you may be going through,

It's just three weeks locked down inside

Told when and where we can go,

It's just non-essential workers and shops

Who should have stood up and said no,

It's just a mask we're making you wear

No longer by choice but by law,

It’s just a fine of a few thousand pounds

Something the conspiracists foresaw,

It’s just until we figure it out

Bars, care homes and schools,

It’s just more people losing their jobs

The government treating us as fools,

It’s just until the cases go down

To protect the great NHS,

It’s just an inaccurate PCR test

The government will never confess,

It’s just to be respectful of others

Hold on, just a handful of weeks,

It’s just gyms and spas and salons and sports

Freedom we desperately seek,

It’s just a place of worship to God

Including churches and mosques,

It’s just our faith they’re trying to kill

Attempting to make us feel lost,

It’s just no singing or happy birthday

They’re trying to cancel our joy,

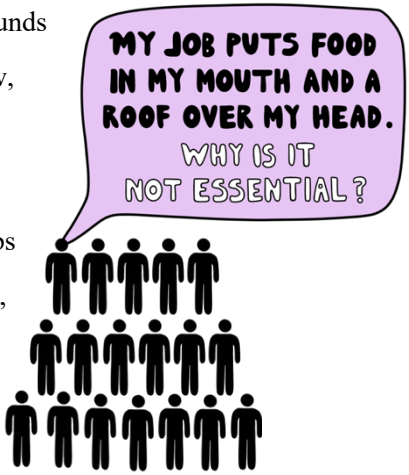
It’s just no travel, no friends or family

What’s next, no Christmas, oh boy!

It’s just some further draconian rules

You haven’t said *no* so here’s more,

It’s just a fruitless one-way system



To divide us up like before,

It's just two weeks of self-isolation

Soon to be reduced by four days,

It's just until we get a vaccine

The public still stuck in their haze,

It's just a little more segregation

Just keep your distance from others,

It's just an app to track you all

Your neighbours, brothers and mothers,

It's just to let us know where you have been

And who you've been in contact with,

It's just there is no escaping us now

We know exactly how you all live,

It's just the planes and borders we've closed

Essentially cancelled most travel,

Stealing freedoms from right under our noses

And so the story unravels,

It's just some extra government guidelines

We promise it's for your own good,

I'm starting to see right through all your lies

Just tell the truth please, you should,

It's just fact-checking and not censorship

We'll just dismiss and ignore you,

It's just these "experts" you should listen to

Even if their words are not true,

It’s just that we really don’t want a debate

Uncovering our many half-truths,

It’s just some thousands of doctors and scientists

The lies, they have all the proof,

It’s just another lockdown my friends

More livelihoods to sadly be lost,

It’s just we’ve got you all under our thumbs

And you won’t ever notice, toes crossed,

It’s just more restrictions and a four-tier system

To help curb the spread of the virus,

It’s just another excuse we’re going to make,

To control you all, no surprises,

It’s just your Christmas we’re cancelling this year

We’ve got you all under control,

It’s just education we’re stopping again

You better all do as you’re told,

It’s just that it’s been a rather long year

But trust us we’re not finished yet,

We’ve got some more plans tucked right up our sleeves

More variants, division and threats,

It’s just a vaccine we’re going to bring in

We promise it’s effective and safe,

It’s just okay for adults right now

But kids it’s coming your way,

It’s just there’s been so many reports

Of deaths and adverse effects,

It's just we're not going to tell you the truth

Exactly what I've come to expect,

It's just your job and freedom on hold

We're going to coerce you all,

Whether twelve or twenty or eighty-two

Whether at work at home or at school,

It's just a vaccine passport my friends

Whatever the name may be,

It's just some countries you cannot enter

We don't care if you do not agree,

It's just a few pubs and public venues

The unvaxxed are not welcome to enter,

Unless you now have a vaccine passport

Or you're a brave, calm, strong, wise dissenter,

It's just some sports clubs or food shopping buildings

The unvaxxed have now been blocked from,

At least this is happening in overseas countries

Let's stay strong and do not conform,

It's just a building we can keep you all in

Against your permission and will,

That goes for quarantine camps in Australia

For those who took the red pill,

It's just a booster we want you to get

We promise it's safe and effective,

Now where have I heard these false words before
From the gov who is far from objective,
It's just the threats will keep rolling on in
Along with the list of half-truths,
It's just that you've fallen for our propaganda
Whether groups of adults or youths,
It's just they're trying to keep us in fear
To emotionally manipulate us,
It's just that some have fallen for it
Wearing masks on a big, empty bus,
It's just that this is all bound to continue
Until we open our eyes,
If you'd like your freedoms back my friends
Take the red pill and rise,
It's just that they said it would be three short weeks
And it's been almost two long full years,
And for those who tried to warn us of this
We condemned and cancelled and sneered,
It's just that in this strange, short period of time
Our compliance gave rise to tyranny,
It's just that our future is looking atrocious
Unless we all have epiphanies

If you still can't see the frog in boiled water
Just look across the vast sea,

At the once great nation of Canada

Now they're the opposite of free,

At first no plans for *divisive* vax passports

At the beginning of 2021,

A few months later there were *pros and cons*

And soon their creation had begun,

And now we're at the end of a very long year

The gov has done a 180,

A vax passport to enter the country

All for our *health* and our *safety*,

Cases of jab-free people

Denied access to church and food stores,

Protests for months with millions of people

The news and the gov just ignore
